

WE'RE LOOKING FOR A PROVEN LEADER

The Wisconsin Department of Veterans Affairs is seeking an innovative manager, who is customer service-driven and who understands that excellence in care delivery starts with respect and compassion, to lead our Veterans Home in King and oversee its continued excellence in providing healthcare.

Our Veterans Home at King is like a 320 acre small town, with four separately licensed nursing homes totaling 749-beds, a post office, a power plant, a water treatment plant, a bowling alley, a barber/beautician shop, a tavern, and a movie theater; and the Commandant is responsible for building an effective community of care with our employees, resident members, veterans organizations and volunteers. As the CEO of the facility, this position has responsibility for the administrative management of the Home, compliance, and outreach to and interaction with the larger community, including our members' families and veterans' service organizations.

To be considered applicants must be licensed Nursing Home Administrators. If licensure is not by the State of Wisconsin, appointees must obtain licensure from the State of Wisconsin within the first 6 months of employment.

Starting salary is between \$87,696 and \$99,449 per year plus an excellent fringe benefits package.
